

ICT MATTERS

RADIO STATION DAY AT SAINTS!

The Year 10 ICT GCSE group was involved in a Radio Station workshop day yesterday. In a tense and frenetic drive to deliver a charged and exciting radio transmission, student radio teams worked hard throughout the day both amassing

stories and practising the delivery of a polished version to listeners. At 3.00pm the students went on air live with school stories, topical reports, sport reviews and music. Jingles were intermixed in the transmission to add that highly professional touch. Students had great fun researching and writing presentations, learning how to use equipment and how to broadcast a live show. 165 people tuned in to the show outside the school and 300 tuned in overall. A big thank you to Mr Prue from Anderton Tiger, to Mrs Davis and Mr Holland for all their help and support and of course to our wonderful radio broadcasters and reporters, who were amazing. To listen to the live show, please access the podcast link on the front page of the school website. If you would like any further details please contact fletchers@st-augustines.worcs.sch.uk. Well done to all students involved - a career in radio perhaps?

Ms Fletcher

INFORMATION MATTERS

YEAR 12 SHORT REPORTS

Year 12 short reports have been issued to students today. The reports are based upon working at grades ie current performance at mock examinations and coursework.

Mr Connolly

SUMMER UNIFORM

Please note that students may now wear summer uniform. Please see the school website to ensure that you are wearing the correct uniform at www.st-augustines.worcs.sch.uk under Parents - General and access the Uniform tab on the right hand side of the page.

THE RESEARCH CLUB

There will be a new club commencing after school each Wednesday during the summer term from Wednesday, 7th May 2014 for students who are interested in finding out more about social research. The club is being run by Rosemarie Lowe from Birmingham City University, who is researching how to engage children and young people as researchers. This is a superb opportunity for you to divulge what it is like being a young person growing up in the 21st century, as well as to carry out social research yourself. If you are thinking about going to university, this might be of interest to you as all undergraduates carry out research regardless of the subject they end up studying. If you are interested in attending the Research Club, please speak to either Mr Elcock (in the Pastoral Office), or Mrs Stockwell (in the Library Learning Zone) to find out more details.

Mrs Stockwell and Mr Elcock
